Design: included in the artist's impression are the following motorcycles and a Wurlitzer Jukebox: Henderson, Crocker, The Flying Merkel board racer, Excelsior & Ace.

Neil's Neck Tubes

Ideal for bikers but also perfectly suited to a variety of outdoors activities and winter sports.

Wear it around the neck - pull it up over face and ears to keep out the cold or over the head and ears. Fits under a helmet and can also be worn as a hat/bandana.

Technical properties of the fabric allow it to feel warm in the winter and cool in the summer - the print feels soft to the touch (feels like the fabric, embedded into the material)

- Fabric: 92% Microfibre Polyester (biodegradable), 8% Du Pont Lycra.
- Machine washable.
- Durable.
- Non-fade (high graphic detail and vibrant colour).
- Retains shape.
- Technical fabric - Wicks moisture away from skin and highly breathable
- Wind and water-resistant (dries very quickly).
- Coated with Silverplus; active silver ions manage hygiene (controls odour and nasty bacteria).
- Measures 38cm x 22cm approx (Unisex - one size fits all).

Product & packaging designed and printed in England. Yes, this is a British made and manufactured product - a high quality item with an exclusive artist's printed design - not to be confused with flimsy thin or bulky cheap mass produced products of this nature.

This product is not officially endorsed, approved or licensed by any rights holder (other than the copyright owner of the original artists interpretation). The designs are motorcycle themed but not specifically targeted at one type of manufactured model, rather the beauty of motorcycles mixed together by era and style, expressed creatively and with respect, originally painted by an artist who is a motorcycle enthusiast and true biker.
